

SARDIUS MEDIA™

SARDIUS LIVE AUTOMATION

*Can your intern manage your simultaneous live broadcasts?
Now they can.*

Simplify your workflow with our end to end automation solution. In moments, schedule your event on our calendar interface & sit back while Sardius Live Automation streams your event, creates an archive & globally publishes your event.

Simplify Your Video Workflow

After an event is scheduled, Sardius Live Automation ensures your event live streaming, archive creation & publishing occur automatically. It's an end to end automation which dramatically reduces the need for administrative oversight.

Streamline Your Employee Needs & Processes

Having the right employee in the right location at the right time is no longer a constraint. Your employee can schedule an event on Sardius Live Automation on any preconfigured encoder from anywhere they access a web browser at anytime before the event occurs.

Do More of What You're Passionate About

Why does your organization stream events? What message are you communicating? Do more creating and communicating while spending less time and effort administering the process.
